

CRAIG HANOCH

227 Montgomery Street, Highland Park, New Jersey 08904; 732/828-6722; craig@hanoch.org

GUITARS

All instruments are built of select tonewoods, many of which I have resawn myself. Wood bindings, standard on all instruments, are solid maple, rosewood, or ebony. Decorative purflings, usually in black and white, highlight the top, back and sides. Neck joints are dovetailed or mortised and securely bolted. Optional tapered cutaway gracefully and comfortably follows the contour of the neck's tapered heel.

CLASSICAL

A clean, even tone and woody texture. Designed for students and smaller players, this small classical is light and comfortable.

Features

- Sitka soundboard
- Quilted maple back and sides, with flame maple stripe
- Flame maple bindings, with rosewood purflings
- Mosaic rosette
- Rosewood (cocobola) fingerboard
- Rosewood (cocobola) bridge; bone nut and saddle
- Slotted headpiece with Schaller tuners
- Hand-joined headpiece, neck and heel of Spanish cedar
- Shellac finish (French polish)

Dimensions (approximate)

- 18.75" body length; 14 1/4" lower bout; 11" upper bout
- 3 1/4" at neck-body joint; 3 3/4" body depth
- 19 frets; 650 mm scale length
- 1 7/8" nut, 2 1/4" saddle

Options

- Full-size body: 19.5" x 14.75" and 11.25" bouts; 2" nut; 660 mm scale
- Mahogany or Spanish cedar neck; adjustable truss rod (\$100 extra)
- Rosewood or ebony fingerboard and bridge
- Mahogany, rosewood, maple, walnut or other tonewoods
- Sitka, Engelmann, or European spruce soundboard; cedar also available
- Ebony, rosewood, or flame maple bindings and other decorative elements
- Gotoh, Gilbert, or Sloan professional tuners (approx. \$150 extra)
- French polish, oil-based varnish, or water-based lacquer

JAZZ CLASSICAL

Designed for jazz artist Antar Goodwin, the Jazz Classical produces clearly articulated, well-balanced tone. With a slightly oversized body, the instrument's bassy fundamental is strong, supporting Antar's powerful bass lines. A very stiff Engelmann spruce top, tuned to bring out ringing trebles, resonates evenly across the guitar's entire tonal range.

Features

- Very stiff, silky Engelmann Spruce soundboard
- Madagascar Rosewood back and sides
- Seven strut fan bracing; spruce bridge pad
- Rosewood binding, cut from the same stock as the sides, with maple purflings, mitred on back and sides
- Carpathian elm burl soundhole rosette
- Macassar Ebony fingerboard, arched to 20"
- Torres style head; Gotoh professional tuners with ivoroid buttons
- Hand-joined and carved mahogany headpiece, neck, and heel
- Dovetail neck joint with bolt (glueless)
- Two-way truss rod
- Reverse mahogany linings for strength, beauty and tone
- Macassar ebony bridge; bone nut, saddle and tie-block inlay
- Oil-based finish; shellac sealer and grain filler

Dimensions (approximate)

- 19.75" body length; 15.25" lower bout; 11.625" upper bout
- 4" body depth; 3.375" at neck-body joint
- 20 frets; 14 frets to the body; 660 scale length
- 2" nut, 2 3/8 string spacing
- Extra hard tension D'Addario strings
- L. R. Baggs Dual Source system, with ribbon transducer and microphone

Maple side purfling, mitred at end, accent sides; end graft and bindings match Madagascar rosewood sides

Tapered cutaway follows heel profile, enhancing comfort and playability

Options

- Mahogany, maple, rosewood, walnut, or other tonewoods
- Engelmann or European spruce soundboard
- Ebony, rosewood or flame maple bindings and other decorative elements
- Choice of tuners
- Alternative nut width and string spacing
- French polish, oil-based varnish, or water-based lacquer
